Official 2025 Series Rules & Class Break Down

- ☒ All machines must pass tech inspection and must be in safe working order. No missing lug nuts, cutter pins, or any other fasteners.
- ☒ All machines must have working front and rear brakes. Bikes only need rear brakes.
- ☒ All machines must have front, rear, and right side (facing outside of the track) number plates. If you do not have one and don't get scored properly that is on you. Number plates must be readable and visible. We have number plates for you to buy at the track in the office.
- ☒ Tether switches are required on all quads except classes that state so in the class breakdown (such as Pee Wee and Super Pee Wee). Bikes do not need them.
- ☒ Nerf bars are required on all quads unless stated in class breakdown (such as Pee Wee and Super Pee Wee).
- ☒ Absolutley NO pit riding without a helmet (especially for minors)
- ☒ Restarts will be at the flaggers discretion.
 - In the event of a restart before the first lap is complete all machines will be lined up on the starting line except for the rider or riders who caused the restart, who will be lined up in the back row.
 - In the event of a restart after the first lap is complete all machines will be lined up single file (not staggered) with no more than 5 feet separating the front and rear of each machine.
- ☒ All riders must have proper safety gear:
 - Helmet
 - Eye Protection
 - Boots above the ankles (no tennis shoes)
 - Gloves
 - Chest Protectors
 - Neck Protector

Please note that rules are subject to change at times. If there are any questions please contact Joe Acker at +1 608-220-7471

*Go For It Raceway LLC
N1696 US HWY 45
Antigo, Wisconsin 54409*

- ☒ All riders will abstain from alcohol or recreational drug use before and during races. Any rider visibly under the influence will be disqualified from points that day and removed from the track.
- ☒ Be in staging 3 classes ahead of your race, we will not wait for anyone. If you are having trouble getting your machine started you can send someone to staging to request a 2 minute grace period, (you will be timed) after that we must move on in order to stick to the schedule.
- ☒ Have a good attitude! If you are having a problem, please be sure to keep your cool when bringing it to the attention of a race official. If you come up with a reasonable attitude, we will do everything in our power to try to resolve the situation. Keep in mind that in almost any case, the race will not be re-ran. We have a great team of flaggers, announcers, stagers, and score keepers that work together to make calls that they see fitting and the official does their best to try to see as much as possible.
- ☒ No cutting the barrels or tires. We understand things can happen but we will be watching for those who intentionally cut the track and we will disqualify accordingly.
- ☒ In the event of an accident, nobody is allowed on the track until all racing has stopped and the ambulance has arrived.
- ☒ All machines must have flat track type tires (such as Hoosier tires) except when noted in the class breakdown (classes such as Pee Wee, Super Pee Wee, Junior Bike, Adult 90, ETC)
- ☒ All machines must fit through the width gauge during tech inspection and be a max of 50" wide through the events.
- ☒ Superstock 90 will be visually tech'd for shocks, etc.
- ☒ Tech'ing for top 3 winners for restriction classes
- ☒ No warming up tires or burnouts at the starting line. Please do it at the second row line.
- ☒ Dangerous pit riding will not be tolerated - dangerous riders will be subject to removal from the race/track.
- ☒ Staff only is allowed in the clubhouse/office.

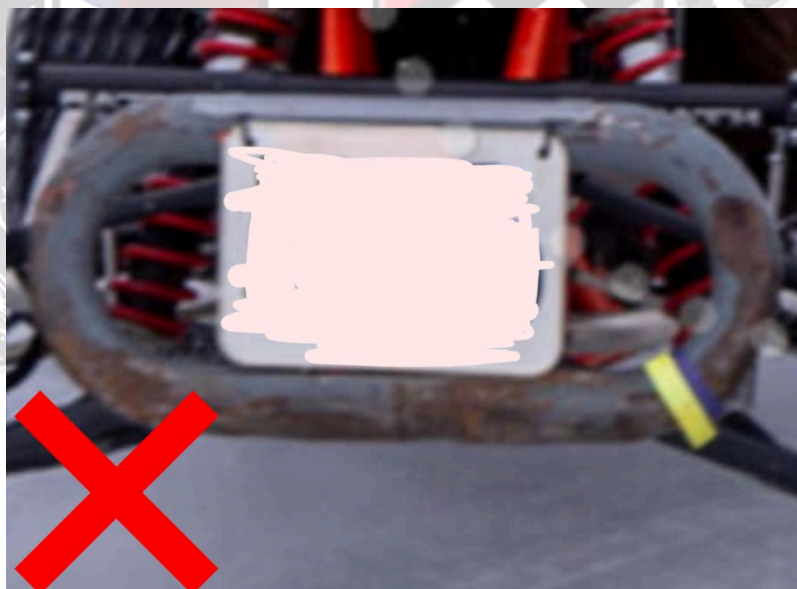

Please note that rules are subject to change at times. If there are any questions please contact Joe Acker at +1 608-220-7471

Antigo, Wisconsin 54409

- ☒ Teardowns-done at the end of each race day
 - \$250 for all classes (\$50 to tech and \$200 to protestee if found legal)
 - If you are going to pay for someone to tear down, you will also be torn down.
- ☒ Weather contingencies
 - If we make it to intermission and then rained out races are done and points will go off the heats
 - If we do not make it to intermission and get rained out, races will be continued the following day.
- ☒ Bumpers
 - No brush type, tube size may not exceed 1.25" diameter.
 - Below is an example image of what will not be allowed.

- ☒ For any questions please contact Joe Acker at +1 608-220-7471.

Please note that rules are subject to change at times. If there are any questions please contact Joe Acker at +1 608-220-7471
